

CARLOS CORDOBA RUIZ

<http://image-filter-starter-code2-dev.us-west-2.elasticbeanstalk.com/>

The screenshot displays the AWS Elastic Beanstalk console interface. On the left, a navigation pane shows the 'Elastic Beanstalk' service selected, with a sub-menu for 'Entornos' (Environments) containing 'Image-filter-starter-code2' and 'image-filter-starter-code2-dev'. The main content area shows the details for the 'image-filter-starter-code2-dev' environment. At the top, there are two informational banners: one about EnhancedHealthAuthEnabled and another about deprecated platforms. Below these, the environment's name 'image-filter-starter-code2-dev' is displayed along with its URL and application name. The environment is shown in a 'Healthy' state, indicated by a green checkmark. The 'Versión en ejecución' (Running Version) is 'app-210930\_142531', and the 'Plataforma' (Platform) is 'Node.js running on 64bit Amazon Linux/4.17.9'. A 'Cargar e implementar' (Upload and Deploy) button is visible. The bottom of the console shows the 'Estado' (Status) as 'Aceptar' (Accept) and 'Causas' (Causes).
